### **REASONS FOR ALLOWANCE**

1. Claims 19-54 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record, Gao et al. (6,604,070), show that it is well known to encode wideband speech signals using short and long term gain parameters which can be filtered. In regard to claims 19,28,37, and 45, the prior art of record does not show or suggest adding the product of the long-term excitation digital word times the associated long-term gain with the product of the short-term excitation word times the associated short-term gain to generate a summed digital word, and filtering the summed, digital word with a low-pass filter having a cutoff frequency greater than a quarter and less than a half of a sampling frequency to obtain a filtered word, and updating the adaptive coded directory with the filtered word.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan McFadden whose telephone number is 571-272-7621. The examiner can normally be reached on Monday-Friday, 9:30-6:00.
